

D.L.S. College, Bilaspur (C.G.)

Best Practices 2018-19

To ensure the promotion of Chhattisgarhi Culture, language, tradition and heritage among the students and various stakeholders. The college has established **Hamar Chhattisgarh (Our Chhattisgarh)** corner in the Central Library. It's a collection of books in Chhattisgarhi language.

Our state is known as Herbal State as it has rich repository of various medicinal plants. The medicinal herbal garden is established in the college, with the main objective of popularizing the utility of important medicinal plants among the various stakeholders and sensitizing the public about our traditional ethnobotanical knowledge. It also helps in conserving Rare; Endangered and Threatened species present in our state.

The two best practices are:

- 1. Hamar Chhattisgarh (Our Chhattisgarh) corner in Library**
- 2. Establishment of Medicinal Plant Garden**

Best Practices I

1. Title

Hamar Chhattisgarh (Our Chhattisgarh) corner in Library.

2. Objective

The college is dedicated to promote Chhattisgarhi Language, culture and traditions with the following objectives:

- To promote Chhattisgarhi among college students, faculty, staff, and society.
- To honour the Chhattisgarhi authors and provide platform to the authors.
- To collect Chhattisgarhi literature in the "**Hamar Chhattisgarh Corner**" of the central library under "**Mai Kothi**" Yojna.
- To promote research on Chhattisgarhi language and culture via conducting different seminars, conferences, symposia, and In-house programs.

3. Context

Hamar Chhattisgarh (Our Chhattisgarh) corner in Library was inaugurated on 2nd March 2017 by Dr. Vinay Kumar Pathak (Chairman, Raj Bhasha Aayog, Government of Chhattisgarh) in association with Raj Bhasha Aayog, in the memory of late Pandit Amritlal Dwivedi (Recipient of First Isuri Prize). It is a collection of Chhattisgarhi arts, culture, and literature.

4. Practice

The main objective of this initiative is to promote the cultural and spiritual literature heritage of Chhattisgarh. Since then, various events have been organized, through departmental student activities and many regional writers have got this platform and opportunity for their book redemption and promote it through various programs organized under it. The institution promotes the use of the Chhattisgarhi language in every possible aspect of the teaching-learning process. The institute has got recognition for the same and Shri Basant Sharma (Chairman, D.L.S. P.G. College, Bilaspur) on behalf of the institution received an award from Chhattisgarh Raj Bhasha Aayog, Govt. of Chhattisgarh in 5th Regional meet 29th Jan. 2017 for popularizing the Chhattisgarhi

language through various workshops, seminars. In this session, for promoting the Chhattisgarhi film, the casting and production crew came to the college.

5. Evidence of Success

The various events were successfully organized.

Glimpses of the related activities:

HAMAR CHHATTISGARH LIBRARY

Inauguration of "Hamar Chhattisgarh" corner in the central library on 2nd March 2017 by Dr. Vinay Kumar Pathak (Chairman, Raj Bhasha Aayog, Government of Chhattisgarh) in association with Raj Bhasha Aayog, in the memory of late Pandit Amritlal Dwivedi (Recipient of First Isuri Prize). It is collection of Chhattisgarhi Arts, Culture and Literature.

Shri Basant Sharma (Chairman, D.L.S. P.G. College, Bilaspur) on behalf of the institution received award from Chhattisgarh Raj Bhasha Aayog, Govt. of Chhattisgarh in 5th Regional meet 29th Jan 2017. The institution promotes use of Chhattisgarhi language in every possible aspect in teaching learning process.

6. Problem encountered

The main problem encountered in this practice is fund and the sufficient number of literature from different sources to keep the library well maintained.

Best Practices II

1. Title

Establishment of Medicinal Plant Garden.

2. Objective

The medicinal herbal garden is established in our college, with the main objective of popularizing the utility of important medicinal plants among the various stakeholders and sensitizing the public about our traditional ethnobotanical knowledge. It also helps in conserving Rare; Endangered and Threatened species present in our state.

3. Context

We have the green house for conserving important medicinal plants as well as in open garden also medicinal value plants have been planted. The students also get well acquainted, when they learn by seeing, they know their scientific names, family, utility, and other environmental factors which affect their physiology and medicinal value content in plants. Medicinal plant gardens have played a significant role in the education and research of plant species used for medicinal purposes. This initiative was highly appreciated by the visitors to our college.

4. Practice

Botanical/medicinal gardens play a crucial role in the conservation, cultivation, and utilization of medicinal plant species, and research activities for students undergoing in-house projects or internships related to Botany, Microbiology and Biotechnology.

5. Evidence of Success

The various events were successfully organized.

Glimpses of the related activities:

6. Problem

The main problem encountered in the practice is funds for regular maintenance and procurement of authentic medicinal planting material.
